Any item listed here may be borrowed free of charge from the Bureau of Information of the National Society for Crippled Children. Additional literature on any of the subjects discussed will be sent to any interested person upon request.

Articles appearing in this Society's bimonthly magazine, THE CRIPPLED CHILD, or in the bimonthly news letter, THE CRIPPLED CHILD BULLETIN, are not listed in this bulletin.

A complete index for this volume will be issued at the end of the year. Information on periodicals in which articles listed in this issue originally appeared is given on Page 7.

Issued monthly to affiliated state and local societies for crippled children, state agencies engaged in the treatment, education or vocational rehabilitation of cripples and public or private institutions and agencies having Institutional Membership in the National Society for Crippled Children. Available to others at 50¢ a year.

168. Aitken, Alexander P., M.D. Rehabilitation of the Industrial Casualty. Archives of Physical Medicine, Jan., 1945. 26:1:25-29.
169. Allen, Frederick M., M.D. The Status of Refrigeration for Military Surgery. Archives of Physical Medicine, Feb., 1945. 26:2:92-98.
170. American Hotel Association. Jobs for G. I. Joe in America's Hotels. 221 West 57th St., New York 19. Dec., 1944. 26 pp.

Information on the government's legislative and administrative provisions for placement and reinstatement of veterans in employment, followed by advice on employment of able-bodied and disabled veterans in hotels. The appendix includes 12 detailed job descriptions.

171. Aurandt, Paul H. Jobs out of the Air. Colliers, Mar. 24, 1945. 115:12:26,52.

I. J. Wagner, Chicago advertising man and veteran of World War I, started a local radio program on which Paul Harvey, a veteran of World War II, interviews weekly three disabled veterans who tell of their employment problems. Listeners offer many jobs, in which the interviewed applicants and others with similar abilities and handicaps are placed.

172. Bagley, Elizabeth B. Hope for the Birth Injured. Parents' Magazine, Mar., 1945. 20:3:32,151-153.

The mother of a 10-year-old girl with spastic paralysis describes this condition and tells how parents can meet it. She lists equipment which she has found helpful.

173. Behan, R. J., M.D. Development of the Modern Hospital. Archives of Physical Medicine, Jan., 1945. 26:1:29-37,41.

174. Bellamy, Zita C. Teaching Typewriting to Those who Have Lost Fingers or a Hand. The Balance Sheet, Mar., 1945. 26:7:244-246,288.

175. "Brass Tacks" on Handicaps. Factory Management and Maintenance, Feb., 1945. 103:2:89-90.

Points out that the percentage of severely disabled veterans is so low that most factories can employ them without elaborate medical and placement machinery.

176. Breyer, Amy, M.D. Examinations of School Children in Ledyard with Special Reference to Rheumatic Fever. Connecticut Health Bulletin, Feb., 1945. 59:2:42-45.

177. Carson, W. G. B. Movies for Shut-ins. Hygeia, April, 1945. 23:4:272-274,306,308.

The Volunteer Film Association of St. Louis was founded in 1939 by Marjorie Lang and Susan Barnes, to show recreational movies to shut-ins in their homes. This article tells how the organization has grown to a membership of 426 volunteers, with 1002 showings of films in the last year. The organization of the work by special committees and the procurement of equipment and films are described. Includes stories of some of the operators' experiences in showing films in homes and hospitals.

178. Chandler, C. J. Annual Message to the Membership of the Kansas Society for Crippled Children. Kansas Society for Crippled Children, 821 First National Bank Bldg., Wichita 2. Feb. 20, 1945. 8 pp.
179. Chant, S. N. F. Home Front Responsibility. Canadian Welfare, Jan., 1945. 20: 7:2-6.

The Acting Director General of Rehabilitation, [Canadian] Department of Veterans Affairs, reviews Canada's governmental provisions for rehabilitation of veterans, and discusses organization and activities of cooperating local voluntary groups known as Citizens Rehabilitation Committees.

180. Children's Bureau Advisory Committee on Services for Crippled Children. The Welfare Bulletin, Feb., 1945. 36:2:10-12.

Presents the report made to the U. S. Children's Bureau Advisory Committee on Services for Crippled Children by a subcommittee on recommendations concerning expansion of services. Lawrence J. Linck, Director of the Illinois Division of Services for Crippled Children, was chairman of the subcommittee. Recommendations include provision of any and all services needed by a crippled child, regardless of relation of the service to the specific crippling condition; availability of all services to children in both urban and rural areas in each state; expansion of provisions to include children handicapped by any physical condition, such as rheumatic fever, eye defects, ear defects, convulsive disorders, allergy, diabetes, etc. Special recommendations are also set forth for services to children with rheumatic fever, administration of state programs, orthopedic services, and physical therapy services.

181. Crawley, J. R. Vocational Rehabilitation in Action. Public Welfare in Indiana, Feb., 1945. 55:2:4,14-15.

Reviews the history of rehabilitation services in this country and presents three short case stories from the Indiana program.

182. The Curative Workshop and the Cardiac Child. The Crusader, Mar., 1945. 37:3:3.
183. Dow, Capt. Robert F. Treatment of Military Amputees. Archives of Physical Medicine, Mar., 1945. 26:3:139-148.

Outlines physical therapy measures for leg and arm amputation stumps before and after plastic-revision operations. Includes suggestions on education of the patient in the use of the prosthesis and a discussion of complications such as contractures, circulatory disturbances, and fractures.

184. Dwan, Paul F., M.D. The Rheumatic Fever Program in Minnesota. The Journal of Pediatrics, Mar., 1945. 26:3:250-254.
185. Easter Seals Again--New Hampshire Society for Crippled Children and Handicapped Persons. New Hampshire Health News, Mar., 1945. 23:3:51-53.
186. Fryklund, Lt. Col. Verne C. Place of the Armed Forces in Conversion Training. Industrial Arts and Vocational Education, Mar., 1945. 34:3:136-137.

As officer in charge of educational activities in the convalescent hospitals of the Army Air Forces, Col. Fryklund explains the types of educational activities carried on by the Army in the hospitals, emphasizing that the vocational value of such activities to the soldier is incidental, the main objective being the patient's recovery.

187. Galvin, Louise F., M.D. The Rheumatic Fever Program in Virginia. The Journal of Pediatrics, Mar., 1945. 26:3:255-258.
188. George Lott, Casualty--Odyssey of Wounded Soldier from Battlefield to U. S. Shows Why 96% of Wounded Survive. Life, Jan. 29, 1945. 18:5:15-27.
189. Graham, Ray; and Linck, Lawrence J. New Developments in the States--V: Illinois. Journal of Exceptional Children, Mar., 1945. 11:6:181-184.

Outline of Illinois legislation for education of handicapped children and report of activities of the Illinois Commission for Handicapped Children, which "is not a service agency but a policymaking administrative organization" coordinating the planning and work of the various state and voluntary agencies providing direct services for the handicapped.

190. Greene, Raymond, D.M. The Prophylaxis of Trench Foot. British Medical Journal, Feb. 24, 1945. 4390:270-271.
191. Grommon, Helen. Polio Pupils. New York State Education, Mar., 1945. 32:6:426-427, 470-471.

A teacher tells of her experiences with highschool pupils at the Ithaca, New York Reconstruction Home for crippled children.

192. Hall, Beatrice. The Role of Medical-Social Service in the Public-Health Program. The Child, Feb., 1945. 9:8:127-130.

Includes a few sketches of medial case work in crippled children programs.

193. Hall, Clark H., M.D. The Rheumatic Fever Program in Oklahoma. The Journal of Pediatrics, Mar., 1945. 26:3:259-261.
194. Heiser, Karl F., Ph.D. Chronic Illness in Connecticut in 1944. Public Health Nursing, Feb., 1945. 37:2:85-92.
195. Hiss, J. G. Fred, M.D. A Plan for Rehabilitation for Rheumatic Subjects. The Journal of Pediatrics, Mar., 1945. 26:3:230-236.

Explains the Syracuse, New York, school health program for finding, classifying, and referring for treatment children with rheumatic fever.

196. Hudson, H. C. New Hope for the Disabled. Canadian Welfare, Jan. 15, 1945. 20:7:21-24.

The Supervisor of Special Placement Operations of the Canadian Unemployment Insurance Commission cites examples of handicapped persons placed in suitable jobs.

197. Huse, Betty, M.D. General Statement Regarding State Rheumatic Fever Programs. The Journal of Pediatrics, Mar., 1945. 26:3:245-249.
198. Jones, T. Duckett, M.D. Rheumatic Fever and the American Academy of Pediatrics--Public Health Aspects: Epidemiology. The Journal of Pediatrics, Mar., 1945. 26:3:262-264.
199. Key, J. Albert, M.D. Indications for and Limitations of Treatment of Poliomyelitis. The Journal of Pediatrics, Mar., 1945. 26:3:265-272.

200. King, Carl F. The Crippled Child in Indiana--How Three Agencies Providing Services to Handicapped Children Co-ordinate Their Efforts. Public Welfare in Indiana, Feb., 1945. 55:2:6-8,14.

Agencies described are the Division of Services for Crippled Children of the Indiana State Department of Public Welfare, the National Foundation for Infantile Paralysis, and the Indiana Society for Crippled Children.

201. Limbs for Veterans. Business Week, Jan. 27, 1945. 804:48-49.

Reports meeting of specialists in prosthesis sponsored by National Research Council. Quotes estimates of 20,000 to 25,000 civilian fittings of prosthesis annually: 10,000 to 15,000 total U. S. Military amputations for World War II; and a total of 925,000 amputees in the country. Mentions training of handicapped veterans as possible solution of manpower shortage in prosthetics industry.

202. Lockwood, Glenn O. What About Your Physically Handicapped Students? Montana Education, Feb., 1945. 21:6:6.

The Physical Restoration Supervisor tells of the services of the Montana Bureau of Vocational Rehabilitation.

203. Lueth, Harold C. Rheumatic Fever in the Army. Hygeia, April, 1945. 23:4:270-271.

204. Maurer, Harold R. What Can be Done for the Crippled Child? Cleveland District Teacher, Mar., 1945. 7:7:5,10-11,13.

Tells how the Society for Crippled Children of Cuyahoga County provides a health camp for crippled children and wounded veterans, a complete guidance and placement service, medical social work, occupational therapy, instruction in speech and creative dramatics, and instruction in handicrafts. Explains contribution that regular school teachers can make by participation in the seal sale and by helping to locate crippled children in need of services.

205. Morgan, John. Deep Is the Heart of Texas. The Eagle Magazine, Mar., 1945. 6, 15,19.

Tells how Eagles in Port Arthur and neighboring Texas cities sponsored a recent drive for funds to construct a dormitory for the Thomas W. Hugen School for Crippled Children in Port Arthur.

206. Muir, Jean. Business Men in the Wards. Nation's Business, Feb., 1945. 33:2:90-91.

At Barnes General [Army] Hospital in Vancouver, Washington, businessmen regularly hold small informal conferences with patients interested in their respective fields.

207. Nathan, Cynthia Rice. Social Service to Plastic Surgery Cases. The Family, Mar., 1945. 26:1:9-15.

Explanation of the Red Cross social worker's activities in the lengthy convalescent and readjustment period in military plastic surgery cases.

208. National Child Labor Committee. The Case for Sixteen Year Employment Laws. Publication No. 392. 419 Fourth Ave., New York 16. Feb., 1945. 8 pp.

209. New Zealand Crippled Children Society. Ninth Annual Report of New Zealand Executive Council. 29 Vivian St., Wellington. 1943-44. 23 pp.
210. Nicholas, William H. Heroes' Return. National Geographic Magazine, Mar., 1945. 87:3:333-352.

Pictures and account of hospital ships bringing wounded soldiers back.

211. Physical Therapy. Vocational Trends, Jan., 1945. pg. 5.

Data on physical therapy as a profession.

212. Piersol, George Morris, M.D. Functions of a Center for Instruction and Research in Physical Medicine. Archives of Physical Medicine, Mar., 1945. 26:3:133-139.
213. Post, Katharine. Rehabilitation Extended. Michigan Vocational Outlook, Mar., 1945. 7:3:141-142.

Discussion of physical restoration services in Michigan.

214. Pruce, Capt. Arthur M. Underwater Treatment Tank. Archives of Physical Medicine, Jan., 1945. 26:1:23-24.
215. Puffelen, John Van. Watches Are Fascinating. Michigan Vocational Outlook, Mar., 1945. 7:3:147-148.

Outline of the watch-repair course given disabled veterans at Michigan's Pine Lake Veterans' Vocational-Technical School.

216. Re-employment of Ex-Service Men and Women, V. Training Program. Industrial Medicine, Mar., 1945. 14:3:196-198.
217. Reiger, Capt. Anthony. Station Hospital Physical Therapy. Archives of Physical Medicine, Feb., 1945. 26:2:104-109.

Physical therapy procedure and apparatus in an Army Station Hospital.

218. Rigeron, D. G. Industrial Rehabilitation of the Handicapped. Industrial Medicine, Mar., 1945. 14:3:173-177.

The Medical Director of Walter Kidde and Co., New Jersey, tells of their experience with handicapped employees, and the special placement and supervision methods they are using.

219. Rowntree, Col. Leonard G. Rheumatic Heart Disease and the Physical Fitness of the Nation as Seen by Selective Service. The Journal of Pediatrics, Mar., 1945. 26:3:220-229.
220. Rudy, Abraham, M.D. Fundamental Concepts in the Treatment of Diabetes Mellitus and Its Complications--Neurological Disturbances in Diabetes Mellitus. No. 27. New York Diabetes Assn., 2 East 103rd St., New York 29, N. Y. Mar., 1945. 3 pp.
221. Scull, C. Wesler, Ph.D. Massage--Physiologic Basis. Archives of Physical Medicine, Mar., 1945. 26:3:159-167.
222. Sharon, Henrietta. "The Guy in the Next Bed." Atlantic Monthly, Mar., 1945. 175:3:77-81.

How artists entertain in military hospitals by sketching patients' portraits.

223. Sheldon, Marjorie P. Testing Functional Ability in the Orthopedically Handicapped. Public Health Nursing, Feb., 1945. 37:2:95-101.

"Training in functional activity is that part of orthopedic care which teaches the patient how best to use his strengths in practical living, walking, stair climbing, essential hand usages, self care. It...may be a haphazard affair unless we have some means of gauging the individual's actual ability in this respect. Such a method is contained in 'The Essential Activity Test for Orthopedic Use' developed at Branch Brook School in Newark, New Jersey." A facsimile of the test and directions for its use accompany this article.

224. Sondag, R. F. Venereal Disease Control in Florida. Florida Health Notes, Feb., 1945. 37:2:21-35.

225. Speer, Lt. Eugene E., Jr. While He Gets Well. Public Welfare in Indiana, Feb., 1945. 55:2:9-10.

Brief account of the Army Air Forces Convalescent Training Program.

226. Stevenson, Jessie L., R.N. Nursing Internships in Orthopedics. Public Health Nursing, Feb., 1945. 37:2:80-81.

227. Tennessee Department of Public Health. Services for Crippled Children in Tennessee. 420 Sixth Ave., North, Nashville, Tenn. 1945. 19 pp.

Illustrated statistical report on Tennessee state treatment program. On Oct. 1, 1944, there were 7,229 children on the state register: 2,184 are receiving treatment. During the calendar year 1943, 392 children were hospitalized at an average per patient cost of \$177.76.

228. Thumbs Up. [First issue, 1945.] Institute for the Crippled and Disabled, 400 First Ave. at 23rd St., New York 10, New York. [17 pp.]

Pictures show cripples learning to stand, walk, and use wheelchairs and other aids to locomotion, and participating in recreational, educational, and vocational activities at the Institute.

229. Trench Foot--An Ugly Winter Disability Which is Caused by Cold Feet is a Big Problem for the U. S. Army on the Western Front. Life, Feb. 12, 1945. 18:7:79-82.

230. Vocational Rehabilitation of the Cardiac Case. The Crusader, Mar., 1945. 37:3:6-7,13-14.

231. [Vormelker, Rose L., Compiler.] Employment of the Disabled Veteran--A Selected List of References to Significant Data. Business Information Sources, Mar., 1945. 16:1:1-4.

232. Watkins, Arthur L., M.D.; and Brazier, Mary A. B., Ph.D. Studies on Muscle Innervation in Poliomyelitis and Nerve Injuries. Archives of Physical Medicine, Feb., 1945. 26:2:69-75.

233. Wheatley, George M., M.D. Mobilization Against Rheumatic Fever. The Journal of Pediatrics, Mar., 1945. 26:3:237-244.

"Now rheumatic fever has come into the foreground as our most serious unsolved pediatric problem. ...There is at present an active interest in the disease. A National Rheumatic Fever Council has been formed for united action."
